Environmental drivers of community structure, food web dynamics, and disease across coastal seascapes

SHELBY ZIEGLER
Odum School of Ecology
Postdoctoral Research Associate
30-AUG

The population ecology of mutualism
Graduate Student Organization invited speaker

CHRIS MOORE
Colby College
Assistant Professor
20-SEP

Impacts of disease-induced keystone predator declines: from genes to ecosystems

ANDREW STORFER
Washington State University
Professor
4-OCT

Farms, fish, and phytoplankton: Long-term response of a reservoir ecosystem to changes in nutrient and detritus subsidies

MICHAEL VANNI
Miami University of Ohio
Professor of Biology
18-OCT

Unravelling the role of trophic interactions and feedbacks in shaping African savanna vegetation and parasite dynamics

JASON DONALDSON
Odum School of Ecology
Postdoctoral Research Associate
15-NOV

Social inequality, urban biodiversity, & decoloniality in ecology: Five shifts in practice so we can do better

MADHUSAN KATTI
North Carolina State University
Associate Professor
27-SEP

Plant and microbial drivers of ecosystem function in a changing world

LEE DIETTERICH
Odum School of Ecology
Postdoctoral Research Associate
11-OCT

Biodiversity and ecosystem services (and disservices!) on farms

CARMEN BLUBAUGH
University of Georgia
Department of Entomology
Assistant Research Scientist
25-OCT

Watershed Export of Dissolved Organic Matter Response to Anthropogenic and Hydroclimatic Driver in Fluvial Network

SHUO CHEN
Idaho State University
Postdoctoral Research Associate
22-NOV
